

## Non-Paper : Elements for Telecommunications Services

Korea considers the following elements should be contained in the Telecommunications Services Chapter or Annex of RCEP. For ease of reference, text examples for each element are also included.

### I. SUGGESTED STRUCTURE AND ELEMENTS OF TELECOM CHAPTER

- SCOPE
- RELATION TO OTHER CHAPTERS
- ACCESS AND USE
- OBLIGATIONS RELATING TO SUPPLIERS OF PUBLIC TELECOMMUNICATIONS
  - Interconnection, Number Portability, Dialing Parity
- TREATMENT BY MAJOR SUPPLIERS
- COMPETITIVE SAFEGUARDS
- RESALE
- UNBUNDLING OF NETWORK ELEMENTS
- INTERCONNECTION (by Major Supplier)
- PROVISIONING AND PRICING OF LEASED CIRCUIT SERVICES
- CO-LOCATION
- ACCESS TO TELECOMMUNICATIONS FACILITIES
- SUBMARINE CABLE SYSTEMS
- CONDITIONS FOR THE SUPPLY OF VALUE-ADDED SERVICES
- INDEPENDENT REGULATORY BODIES
- UNIVERSAL SERVICE
- LICENSING PROCESS
- ALLOCATION AND USE OF SCARCE TELECOMMUNICATIONS RESOURCES
- ENFORCEMENT
- RESOLUTION OF TELECOMMUNICATIONS DISPUTES
- TRANSPARENCY
- MEASURES CONCERNING TECHNOLOGIES AND STANDARDS
- RELATION TO INTERNATIONAL ORGANISATIONS
- DEFINITIONS

### II. TEXT EXAMPLES (REFERENCE PURPOSE ONLY)

Non-Paper : Elements for Telecommunications Services

- SCOPE : Broadcasting excluded, covers only public telecommunications networks and services

**Annex on Telecommunications (GATS)**

**2. Scope**

(a) This Annex shall apply to all measures of a Member that affect access to and use of public telecommunications transport networks and services.

(b) This Annex shall not apply to measures affecting the cable or broadcast distribution of radio or television programming.

(c) Nothing in this Annex shall be construed:

(i) to require a Member to authorize a service supplier of any other Member to establish, construct, acquire, lease, operate, or supply telecommunications transport networks or services, other than as provided for in its Schedule; or

(ii) to require a Member (or to require a Member to oblige service suppliers under its jurisdiction) to establish, construct, acquire, lease, operate or supply telecommunications transport networks or services not offered to the public generally.

**Reference Paper (GATS)**

**Scope**

The following are definitions and principles on the regulatory framework for the basic telecommunications services.

**KOREA-AUSTRALIA FTA**

**ARTICLE 9.1: SCOPE**

1. This Chapter shall apply to measures adopted or maintained by a Party affecting trade in telecommunications services.

2. Except to ensure that enterprises operating broadcast stations and cable systems have continued access to and use of public telecommunications networks or services, this Chapter shall not apply to any measure relating to broadcast or cable distribution of radio or television programming.

3. Nothing in this Chapter shall be construed to require a Party to compel any enterprise to:

Non-Paper : Elements for Telecommunications Services

- (a) establish, construct, acquire, lease, operate, or provide telecommunications networks or services not offered to the public generally; or
- (b) make available its broadcast or cable facilities as a public telecommunications network where the enterprise is exclusively engaged in the broadcast or cable distribution of radio or television programming.

● RELATION TO OTHER CHAPTERS

**KOREA-AUSTRALIA FTA**

ARTICLE 9.2: RELATION TO OTHER CHAPTERS

In the event of any inconsistency between this Chapter and another Chapter, this Chapter shall prevail to the extent of the inconsistency.

● ACCESS AND USE : Comes straight from GATS Telecom Annex, defines major supplier etc.

**Annex on Telecommunications (GATS)**

**5. Access to and use of Public Telecommunications Transport Networks and Services**

(a) Each Member shall ensure that any service supplier of any other Member is accorded access to and use of public telecommunications transport networks and services on reasonable and non-discriminatory terms and conditions, for the supply of a service included in its Schedule. This obligation shall be applied, *inter alia*, through paragraphs (b) through (f).

(b) Each Member shall ensure that service suppliers of any other Member have access to and use of any public telecommunications transport network or service offered within or across the border of that Member, including private leased circuits, and to this end shall ensure, subject to paragraphs (e) and (f), that such suppliers are permitted:

(i) to purchase or lease and attach terminal or other equipment which interfaces with the network and which is necessary to supply a supplier's services;

(ii) to interconnect private leased or owned circuits with public telecommunications transport networks and services or with circuits leased or owned by another service supplier; and

Non-Paper : Elements for Telecommunications Services

(iii) to use operating protocols of the service supplier's choice in the supply of any service, other than as necessary to ensure the availability of telecommunications transport networks and services to the public generally.

(c) Each Member shall ensure that service suppliers of any other Member may use public telecommunications transport networks and services for the movement of information within and across borders, including for intra-corporate communications of such service suppliers, and for access to information contained in data bases or otherwise stored in machine-readable form in the territory of any Member. Any new or amended measures of a Member significantly affecting such use shall be notified and shall be subject to consultation, in accordance with relevant provisions of the Agreement.

(d) Notwithstanding the preceding paragraph, a Member may take such measures as are necessary to ensure the security and confidentiality of messages, subject to the requirement that such measures are not applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on trade in services.

(e) Each Member shall ensure that no condition is imposed on access to and use of public telecommunications transport networks and services other than as necessary:

(i) to safeguard the public service responsibilities of suppliers of public telecommunications transport networks and services, in particular their ability to make their networks or services available to the public generally;

(ii) to protect the technical integrity of public telecommunications transport networks or services;  
or

(iii) to ensure that service suppliers of any other Member do not supply services unless permitted pursuant to commitments in the Member's Schedule.

(f) Provided that they satisfy the criteria set out in paragraph (e), conditions for access to and use of public telecommunications transport networks and services may include:

(i) restrictions on resale or shared use of such services;

(ii) a requirement to use specified technical interfaces, including interface protocols, for inter-connection with such networks and services;

(iii) requirements, where necessary, for the inter-operability of such services and to encourage the

Non-Paper : Elements for Telecommunications Services

achievement of the goals set out in paragraph 7(a);

(iv) type approval of terminal or other equipment which interfaces with the network and technical requirements relating to the attachment of such equipment to such networks;

(v) restrictions on inter-connection of private leased or owned circuits with such networks or services or with circuits leased or owned by another service supplier; or

(vi) notification, registration and licensing.

(g) Notwithstanding the preceding paragraphs of this section, a developing country Member may, consistent with its level of development, place reasonable conditions on access to and use of public telecommunications transport networks and services necessary to strengthen its domestic telecommunications infrastructure and service capacity and to increase its participation in international trade in telecommunications services. Such conditions shall be specified in the Member's Schedule.

**KOREA-AUSTRALIA FTA**

ARTICLE 9.3: ACCESS AND USE

1. Each Party shall ensure that service suppliers of the other Party have access to and use of any public telecommunications network or service, including leased circuits, offered in its territory or across its borders on a timely basis, and on reasonable and non-discriminatory terms and conditions, including as set out in paragraphs 2 through 6.

2. Each Party shall ensure that service suppliers of the other Party are permitted to:

(a) purchase or lease, and attach terminal or other equipment that interfaces with a public telecommunications network;

(b) provide services to individual or multiple end-users over owned or leased circuits;

(c) connect owned or leased circuits with public telecommunications networks or services in the territory, or across the borders, of that Party, or with circuits leased or owned by another service supplier;

(d) perform switching, signalling, processing and conversion functions; and

(e) use operating protocols of their choice in the supply of any service.

3. Each Party shall ensure that service suppliers of the other Party may use public telecommunications networks or services for the movement of information in its territory or across its borders, including for intra-corporate communications, and for access to information contained in

Non-Paper : Elements for Telecommunications Services

databases or otherwise stored in machine-readable form in the territory of either Party or any non-Party which is a party to the WTO Agreement.

4. Notwithstanding paragraph 3, a Party may take such measures as are necessary to:

- (a) ensure the security and confidentiality of messages; and
- (b) protect the privacy of personal data of end-users of public telecommunications networks or services, provided that such measures are not applied in a manner that would constitute a means of arbitrary or unjustifiable discrimination or a disguised restriction on trade in services.

5. Each Party shall ensure that no condition is imposed on access to and use of public telecommunications networks or services, other than as necessary to:

- (a) safeguard the public service responsibilities of suppliers of public telecommunications networks or services, in particular their ability to make their networks or services available to the public generally; or
- (b) protect the technical integrity of public telecommunications networks or services.

6. Provided that they satisfy the criteria set out in paragraph 5, conditions for access to and use of public telecommunications networks or services may include:

- (a) a requirement to use specified technical interfaces, including interface protocols, for interconnection with such networks or services;
- (b) requirements, where necessary, for the inter-operability of such networks or services; and
- (c) type approval of terminal or other equipment which interfaces with the network and technical requirements relating to the attachment of such equipment to such networks.

❶ OBLIGATIONS RELATING TO SUPPLIERS OF PUBLIC TELECOMMUNICATIONS

- Interconnection, Number Portability, Dialing Parity

**KOREA-AUSTRALIA FTA**

ARTICLE 9.4: OBLIGATIONS RELATING TO SUPPLIERS OF PUBLIC TELECOMMUNICATIONS NETWORKS OR SERVICES<sup>25</sup>

*Interconnection*

1. Each Party shall ensure that:

- (a) suppliers of public telecommunications networks or services in its territory provide, directly or indirectly, interconnection with suppliers of public telecommunications networks or services of the other Party. The rates, terms and conditions of such interconnection will generally be

Non-Paper : Elements for Telecommunications Services

determined through commercial negotiation between the service suppliers concerned, in accordance with the laws and regulations of the Party; and

(b) in carrying out subparagraph (a), suppliers of public telecommunications networks or services in its territory take reasonable steps to protect the confidentiality of commercially sensitive information of, or relating to, suppliers and end-users of public telecommunications networks or services and only use such information for the purpose of providing these services.

*Number Portability*

2. Each Party shall ensure that suppliers of public telecommunications networks or services in its territory provide number portability to the extent technically feasible, on a timely basis, and on terms and conditions that are reasonable and non-discriminatory.

*Dialling Parity*

3. Each Party shall ensure that:

(a) its telecommunications regulatory body has the authority to require that suppliers of public telecommunications services in its territory provide dialling parity within the same category of service to suppliers of public telecommunications services of the other Party; and

(b) suppliers of public telecommunications services of the other Party are afforded non-discriminatory access to telephone numbers.

25) This Article is subject to Annex 9-A.

● TREATMENT BY MAJOR SUPPLIERS

**KOREA-AUSTRALIA FTA**

ARTICLE 9.5: TREATMENT BY MAJOR SUPPLIERS

Each Party shall ensure that major suppliers in its territory accord suppliers of public telecommunications networks or services of the other Party treatment no less favourable than such major suppliers accord in like circumstances to its subsidiaries, its affiliates, or non-affiliated service suppliers regarding:

(a) the availability, provisioning, rates, or quality of like public telecommunications networks or services; and

Non-Paper : Elements for Telecommunications Services

(b) the availability of technical interfaces necessary for interconnection.

● COMPETITIVE SAFEGUARDS

**Reference Paper (GATS)**

**1. Competitive safeguards**

1.1 Prevention of anti-competitive practices in telecommunications

Appropriate measures shall be maintained for the purpose of preventing suppliers who, alone or together, are a major supplier from engaging in or continuing anti-competitive practices.

1.2 Safeguards

The anti-competitive practices referred to above shall include in particular:

- (a) engaging in anti-competitive cross-subsidization;
- (b) using information obtained from competitors with anti-competitive results; and
- (c) not making available to other services suppliers on a timely basis technical information about essential facilities and commercially relevant information which are necessary for them to provide services.

**KOREA-AUSTRALIA FTA**

ARTICLE 9.6: COMPETITIVE SAFEGUARDS

1. Each Party shall maintain appropriate measures for the purposes of preventing suppliers of public telecommunications networks or services that, alone or together, are a major supplier in its territory, from engaging in or continuing anticompetitive practices.

2. The anticompetitive practices referred to in paragraph 1 include, in particular:

- (a) engaging in anticompetitive cross-subsidisation;
- (b) using information obtained from competitors with anticompetitive results;
- (c) not making available, on a timely basis, to suppliers of public telecommunications networks or services, technical information about essential facilities and commercially relevant information that are necessary for them to provide services; and
- (d) pricing services in a manner that is likely to unreasonably restrict competition, including predatory pricing.

Non-Paper : Elements for Telecommunications Services

● RESALE

**KOREA-AUSTRALIA FTA**

ARTICLE 9.7: RESALE

1. Each Party shall ensure that major suppliers in its territory do not impose unreasonable or discriminatory conditions or limitations on the resale of their public telecommunications services by suppliers of public telecommunications services of the other Party, where such conditions or limitations would have anticompetitive results.

2. Where a Party requires a major supplier of public telecommunications services in its territory to offer for resale, to suppliers of public telecommunications services of the other Party, public telecommunications services that such major supplier provides at retail to end-users that are not suppliers of public telecommunications services, it shall ensure that such services are offered for resale at reasonable rates.<sup>27</sup>

27) For the purposes of paragraph 2:

(a) a Party may determine reasonable rates through any methodology it considers appropriate; and

(b) wholesale rates, set in accordance with the laws and regulations of a Party, shall be considered reasonable.

Non-Paper : Elements for Telecommunications Services

● UNBUNDLING OF NETWORK ELEMENTS

**KOREA-AUSTRALIA FTA**

ARTICLE 9.8: UNBUNDLING OF NETWORK ELEMENTS

Each Party shall provide its telecommunications regulatory body with the authority to require major suppliers in its territory to provide suppliers of public telecommunications networks or services of the other Party, on a timely basis, access to network elements for the provision of public telecommunications networks or services on an unbundled basis, and on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory and transparent.

● INTERCONNECTION (by Major Supplier)

**Reference Paper (GATS)**

**2. Interconnection**

2.1 This section applies to linking with suppliers providing public telecommunications transport networks or services in order to allow the users of one supplier to communicate with users of another supplier and to access services provided by another supplier, where specific commitments are undertaken.

2.2 Interconnection to be ensured

Interconnection with a major supplier will be ensured at any technically feasible point in the network. Such interconnection is provided.

(a) under non-discriminatory terms, conditions (including technical standards and specifications) and rates and of a quality no less favourable than that provided for its own like services or for like services of non-affiliated service suppliers or for its subsidiaries or other affiliates;

(b) in a timely fashion, on terms, conditions (including technical standards and specifications) and cost-oriented rates that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the supplier need not pay for network components or facilities that it does not require for the service to be provided; and

(c) upon request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2.3 Public availability of the procedures for interconnection negotiations

Non-Paper : Elements for Telecommunications Services

The procedures applicable for interconnection to a major supplier will be made publicly available.

2.4 Transparency of interconnection arrangements

It is ensured that a major supplier will make publicly available either its interconnection agreements or a reference interconnection offer.

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

(a) at any time or

(b) after a reasonable period of time which has been made publicly known

to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

**KOREA-AUSTRALIA FTA**

ARTICLE 9.9: INTERCONNECTION

1. Each Party shall ensure that major suppliers in its territory provide interconnection for the facilities and equipment of suppliers of public telecommunications networks or services of the other Party:

(a) at any technically feasible point in the major supplier's network;

(b) under non-discriminatory terms, conditions (including technical standards and specifications) and rates;

(c) of a quality no less favourable than that provided by the major supplier for its own like services, for like services of non-affiliated service suppliers, or for its subsidiaries or other affiliates;

(d) in a timely fashion, and on terms and conditions (including technical standards and specifications) and at cost-oriented rates, that are transparent, reasonable, having regard to economic feasibility, and sufficiently unbundled so that the suppliers seeking interconnection need not pay for network components or facilities that they do not require for the service to be provided; and

(e) on request, at points in addition to the network termination points offered to the majority of users, subject to charges that reflect the cost of construction of necessary additional facilities.

2. Each Party shall ensure that suppliers of public telecommunications networks or services of the other Party may interconnect their facilities and equipment with those of major suppliers in its territory in accordance with at least one of the following options:

(a) a reference interconnection offer or another standard interconnection offer containing the

Non-Paper : Elements for Telecommunications Services

rates, terms, and conditions that the major supplier offers generally to suppliers of public telecommunications networks or services;

- (b) the terms and conditions of an existing interconnection agreement; or
- (c) through negotiation of a new interconnection agreement.

3. Each Party shall ensure that applicable procedures for interconnection negotiations with major suppliers in its territory are made publicly available.

4. Each Party shall ensure that major suppliers in its territory may be required to file interconnection agreements with the Party's telecommunications regulatory body.

5. Each Party shall ensure, where interconnection is provided under paragraph 2(a), that the rates, terms and conditions are made publicly available.

● PROVISIONING AND PRICING OF LEASED CIRCUIT SERVICES

**KOREA-AUSTRALIA FTA**

ARTICLE 9.10: PROVISIONING AND PRICING OF LEASED CIRCUIT SERVICES

1. Each Party shall ensure that major suppliers in its territory provide to suppliers of public telecommunications networks or services of the other Party leased circuit services that are public telecommunications services in a reasonable period of time, on terms and conditions, and at rates, that are reasonable, non-discriminatory and transparent.

2. In carrying out paragraph 1, each Party shall provide its telecommunications regulatory body with the authority to require major suppliers in its territory to offer leased circuit services that are public telecommunications services to suppliers of public telecommunications networks or services of the other Party at capacity-based, cost-oriented prices.

● CO-LOCATION

**KOREA-AUSTRALIA FTA**

ARTICLE 9.11: CO-LOCATION

1. Each Party shall ensure that major suppliers in its territory provide to suppliers of public

Non-Paper : Elements for Telecommunications Services

telecommunications networks or services of the other Party physical co-location of equipment necessary for interconnection or access to unbundled network elements on a timely basis and on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory and transparent.

2. Notwithstanding paragraph 1, where physical co-location is not practical for technical reasons or because of space limitations, each Party shall ensure that major suppliers in its territory provide an alternative solution on a timely basis and on terms and conditions, and at cost-oriented rates, that are reasonable, non-discriminatory and transparent.

3. Each Party may determine, in accordance with its laws and regulations, which premises in its territory are subject to paragraphs 1 and 2.

● ACCESS TO TELECOMMUNICATIONS FACILITIES

**KOREA-AUSTRALIA FTA**

ARTICLE 9.12: ACCESS TO TELECOMMUNICATIONS FACILITIES

1. Each Party shall ensure that major suppliers in its territory provide access to poles, ducts, conduits, rights of way and any other structures deemed necessary by the Party, owned or controlled by major suppliers to suppliers of public telecommunications networks or services of the other Party in the Party's territory on a timely basis and on terms and conditions, and at rates, that are reasonable, non-discriminatory and transparent.

2. Each Party may determine in accordance with its laws and regulations the poles, ducts, conduits, rights of way or other structures to which it requires major suppliers in its territory to provide access under paragraph 1.

Non-Paper : Elements for Telecommunications Services

● SUBMARINE CABLE SYSTEMS

**KOREA-AUSTRALIA FTA**

ARTICLE 9.13: SUBMARINE CABLE SYSTEMS

Where a supplier of telecommunications networks or services operates a submarine cable system to provide public telecommunications networks or services, the Party in whose territory the supplier is located shall ensure that such supplier accords the suppliers of public telecommunication networks or services of the other Party reasonable and non-discriminatory treatment with respect to access<sup>29</sup> to that submarine cable system (including landing facilities) in its territory.

29 ) For greater certainty:

- (a) access to submarine cable landing facilities is subject to capacity; and
- (b) with respect to access for suppliers of public telecommunications networks or services of the other Party that do not own facilities in the territory of the Party, a Party may comply with this provision by ensuring access to submarine cable systems through facilities leased from, or public telecommunications services provided by, a supplier of public telecommunications networks or services licensed in its territory.

● CONDITIONS FOR THE SUPPLY OF VALUE-ADDED SERVICES

**KOREA-AUSTRALIA FTA**

ARTICLE 9.14: CONDITIONS FOR THE SUPPLY OF VALUE-ADDED SERVICES

1. Neither Party shall require a service supplier in its territory that it classifies as a supplier of value-added services and that supplies those services over facilities that the supplier does not own to:

- (a) supply those services to the public generally;
- (b) cost-justify its rates for those services;
- (c) file a tariff for those services;
- (d) connect its networks with any particular customer for the supply of those services; or
- (e) conform with any particular standard or technical regulation of the telecommunications regulatory body for connecting to any other network, other than a public telecommunications network.

2. Notwithstanding paragraph 1, a Party may take the actions described in paragraph 1 to remedy a practice of a supplier of value-added services that the Party has found in a particular case to be anticompetitive in accordance with its laws and regulations, or to otherwise promote competition or safeguard the interests of consumers.

Non-Paper : Elements for Telecommunications Services

Non-Paper : Elements for Telecommunications Services

● INDEPENDENT REGULATORY BODIES

Reference Paper (GATS)

**5. Independent regulators**

The regulatory body is separate from, and not accountable to, any supplier of basic telecommunications services. The decisions of and the procedures used by regulators shall be impartial with respect to all market participants.

KOREA-AUSTRALIA FTA

ARTICLE 9.15: INDEPENDENT REGULATORY BODIES

1. Each Party shall ensure that its telecommunications regulatory body is separate from and functionally independent of any supplier of public telecommunications networks or services. To this end, each Party shall ensure that its telecommunications regulatory body does not own equity<sup>30</sup> or maintain an operating or management role in any such supplier.

2. Each Party shall ensure that the decisions and procedures of its telecommunications regulatory body are impartial with respect to all market participants<sup>31</sup> and shall be made and implemented on a timely basis.

30) For greater certainty, this paragraph shall not prohibit a government entity of a Party other than the telecommunications regulatory body from owning equity in a supplier of telecommunications services.

31) For greater certainty, the term "market participants" includes service suppliers seeking to participate in the telecommunications market.

● UNIVERSAL SERVICE

Reference Paper (GATS)

**3. Universal service**

Any Member has the right to define the kind of universal service obligation it wishes to maintain. Such obligations will not be regarded as anti-competitive per se, provided they are administered in a transparent, non-discriminatory and competitively neutral manner and are not more burdensome than necessary for the kind of universal service defined by the Member.

Non-Paper : Elements for Telecommunications Services

**KOREA-AUSTRALIA FTA**

ARTICLE 9.16: UNIVERSAL SERVICE

Each Party shall administer any universal service obligation that it maintains in a transparent, non-discriminatory and competitively neutral manner and shall ensure that its universal service obligation is not more burdensome than necessary for the kind of universal service that it has defined.

● LICENSING PROCESS

**Reference Paper (GATS)**

**4. Public availability of licensing criteria**

Where a licence is required, the following will be made publicly available:

(a) all the licensing criteria and the period of time normally required to reach a decision concerning an application for a licence and

(b) the terms and conditions of individual licences.

The reasons for the denial of a licence will be made known to the applicant upon request.

**KOREA-AUSTRALIA FTA**

ARTICLE 9.17: LICENSING PROCESS

1. When a Party requires a supplier of public telecommunications networks or services to have a licence, the Party shall make publicly available:

(a) all the licensing criteria and procedures it applies;

(b) the period it normally requires to reach a decision concerning an application for a licence; and

(c) the terms and conditions of all licences in effect.

2. Each Party shall ensure that, on request, an applicant receives the reasons for the denial of, revocation of, refusal to renew, or imposition of conditions on, a licence.

● ALLOCATION AND USE OF SCARCE TELECOMMUNICATIONS RESOURCES

Non-Paper : Elements for Telecommunications Services

Reference Paper (GATS)

**6. Allocation and use of scarce resources**

Any procedures for the allocation and use of scarce resources, including frequencies, numbers and rights of way, will be carried out in an objective, timely, transparent and non-discriminatory manner. The current state of allocated frequency bands will be made publicly available, but detailed identification of frequencies allocated for specific government uses is not required.

KOREA-AUSTRALIA FTA

ARTICLE 9.18: ALLOCATION AND USE OF SCARCE TELECOMMUNICATIONS RESOURCES

1. Each Party shall administer its procedures for the allocation and use of scarce telecommunications resources, including frequencies, numbers, and rights of way, in an objective, timely, transparent and non-discriminatory manner.

2. Each Party shall make publicly available the current state of allocated frequency bands but shall not be required to provide detailed identification of frequencies allocated or assigned for specific government uses.

3. For greater certainty, a Party's measures allocating and assigning spectrum and managing frequency are not measures that are per se inconsistent with Article 7.4 (Market Access) either as it applies to Chapter 7 (Cross-Border Trade in Services) or through the operation of Article 7.1 (Scope) to Chapter 11 (Investment). Accordingly, each Party shall retain the right to establish and apply spectrum and frequency management policies that may have the effect of limiting the number of suppliers of public telecommunications networks or services, provided that it does so in a manner consistent with other provisions of this Agreement. This includes the ability to allocate frequency bands, taking into account current and future needs.

4. Each Party shall endeavour to allocate and assign spectrum for non-government telecommunications services in a transparent manner that considers the overall public interest, including the encouragement of the economically efficient use of the spectrum and competition among suppliers of telecommunications services, and recognising that a Party may encourage such activities through a variety of means, including through administrative incentive pricing, auctions, or unlicensed use.

Non-Paper : Elements for Telecommunications Services

● ENFORCEMENT

**KOREA-AUSTRALIA FTA**

ARTICLE 9.19: ENFORCEMENT

1. Each Party shall provide its telecommunications regulatory body with the authority to enforce the Party's measures relating to the obligations in Articles 9.3 through 9.13.

2. Such authority shall include the ability to impose, or seek from administrative or judicial bodies, effective sanctions, which may include financial penalties, injunctive relief (on an interim or final basis), corrective orders, or the modification, suspension, or revocation of licences.

● RESOLUTION OF TELECOMMUNICATIONS DISPUTES

**Reference Paper**

2.5 Interconnection: dispute settlement

A service supplier requesting interconnection with a major supplier will have recourse, either:

(a) at any time or

(b) after a reasonable period of time which has been made publicly known to an independent domestic body, which may be a regulatory body as referred to in paragraph 5 below, to resolve disputes regarding appropriate terms, conditions and rates for interconnection within a reasonable period of time, to the extent that these have not been established previously.

**KOREA-AUSTRALIA FTA**

ARTICLE 9.20: RESOLUTION OF TELECOMMUNICATIONS DISPUTES

Further to Articles 19.3 (Administrative Proceedings) and 19.4 (Review and Appeal), each Party shall ensure that:

*Recourse*

(a) suppliers of public telecommunications networks or services may have recourse to a telecommunications regulatory body or other relevant body of the Party to resolve disputes between suppliers of public telecommunications networks or services on a timely basis regarding measures relating to matters in Articles 9.3 through 9.13;

Non-Paper : Elements for Telecommunications Services

(b) suppliers of public telecommunications networks or services of the other Party that have requested interconnection with a major supplier in the Party's territory may have recourse, within a reasonable and publicly specified period after the supplier requests interconnection, to a telecommunications regulatory body or other relevant body to resolve disputes regarding the terms, conditions, and rates for interconnection with such major supplier; and

*Judicial Review*

(c) any service supplier whose legally-protected interests are adversely affected by a determination or decision of the Party's telecommunications regulatory body may obtain review of the determination or decision by an impartial and independent judicial authority of the Party. Neither Party shall permit the making of an application for judicial review to constitute grounds for non-compliance with the determination or decision of the telecommunications regulatory body, unless the relevant judicial body otherwise determines.

● TRANSPARENCY

*Annex on Telecommunications (GATS)*

**4. Transparency**

In the application of Article III of the Agreement, each Member shall ensure that relevant information on conditions affecting access to and use of public telecommunications transport networks and services is publicly available, including: tariffs and other terms and conditions of service; specifications of technical interfaces with such networks and services; information on bodies responsible for the preparation and adoption of standards affecting such access and use; conditions applying to attachment of terminal or other equipment; and notifications, registration or licensing requirements, if any.

*KOREA-AUSTRALIA FTA*

ARTICLE 9.21: TRANSPARENCY

Further to Article 19.1 (Publication), each Party shall ensure that:

(a) regulatory decisions, including the basis for such decisions, of its telecommunications regulatory body are promptly published or otherwise made available to all interested persons;

(b) its measures relating to public telecommunications networks or services are made publicly available, including:

Non-Paper : Elements for Telecommunications Services

- (i) tariffs and other terms and conditions of service;
  - (ii) specifications of technical interfaces;
  - (iii) conditions for attaching terminal or other equipment to public telecommunications networks;
  - (iv) notification, permit, registration, or licensing requirements, if any;
  - (v) the amendment and adoption of measures concerning technologies or standards affecting access and use; and
  - (vi) procedures relating to judicial or administrative review; and
- (c) its telecommunications regulatory body or other relevant body provides, on request by a supplier of public telecommunications networks or services of the other Party, a written explanation of reasons for any decision that denies access of the kind specified in Articles 9.9, 9.11 and 9.12.

● MEASURES CONCERNING TECHNOLOGIES AND STANDARDS

**KOREA-AUSTRALIA FTA**

ARTICLE 9.22: MEASURES CONCERNING TECHNOLOGIES AND STANDARDS<sup>32</sup>

1. Neither Party shall prevent suppliers of public telecommunications networks or services or value-added services from having the flexibility to choose the technologies that they use to supply their services.

2. Notwithstanding paragraph 1, a Party may apply a measure that limits the technologies or standards that a supplier of public telecommunications networks or services or value-added services may use to supply its services, provided that the measure is designed to satisfy a legitimate public policy objective and is not prepared, adopted or applied in a manner that creates unnecessary obstacles to trade.<sup>33</sup>

32) For greater certainty, except for paragraph 1, this Article shall not apply to measures adopted before the date of entry into force of this Agreement.

33) For greater certainty:

- (a) a Party retains the right to define its own legitimate public policy objectives; and
- (b) whenever such a measure is based on relevant international standards, it shall be rebuttably presumed not to create unnecessary obstacles to trade.

Non-Paper : Elements for Telecommunications Services

● RELATION TO INTERNATIONAL ORGANISATIONS

**Annex on Telecommunications (GATS)**

**7. Relation to International Organizations and Agreements**

(a) Members recognize the importance of international standards for global compatibility and inter-operability of telecommunication networks and services and undertake to promote such standards through the work of relevant international bodies, including the International Telecommunication Union and the International Organization for Standardization.

(b) Members recognize the role played by intergovernmental and non-governmental organizations and agreements in ensuring the efficient operation of domestic and global telecommunications services, in particular the International Telecommunication Union. Members shall make appropriate arrangements, where relevant, for consultation with such organizations on matters arising from the implementation of this Annex.

**KOREA-AUSTRALIA FTA**

**ARTICLE 9.24: RELATION TO INTERNATIONAL ORGANISATIONS**

The Parties recognise the importance of international standards for global compatibility and inter-operability of telecommunications networks and services and undertake to promote such standards through the work of relevant international organisations, including the International Telecommunication Union and the International Organization for Standardization.
